

GOING GREEN IN 2010

Southwest States RC&D Conference Ft. Worth, Texas

Texas Association of Resource Conservation
and Development (RC&D) Areas, Inc.

Bluebonnet RC&D, Southwest States RC&D Association, and Texas RC&D Association are joining ranks to produce an environmentally responsible conference.

Our conference goals are to reduce waste, save energy, and recycle where possible. To achieve a green conference we will:

1. *Go for a paperless registration*

*Register and pay on line at
<http://bluebonnet-rcd.org>*

2. *Reduce paper hand outs*

Conference agendas, topic descriptions, and speaker biographies will be posted on the website and emailed. Any hard copy registrants will have materials faxed or mailed (last choice).

Speaker presentations will be posted on the website in the members page for registrant only access.

3. *Reduce individually packaged products*

Reusable pitchers and glassware reduce water and energy use, air pollution, and other environmental costs of bottling and transportation.

4. *Encourage mass transit use*

Check the web links for Dart, TRE and the T. Bus service will be provided for the self guided tours of Ft. Worth.

5. *Recycle all possible paper, cans and plastics*

Look for recycling bins in the conference areas

*Thank you for coming to Fort Worth,
Texas!*
